Disclaimer

This Health IT Module is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.

Additional Costs :

- One-time implementation fee

- Yearly maintenance charge

The additional costs that an eligible provider would pay to implement GeniusDoc V11.0 in order to attempt to meet meaningful use objectives and measures include:

Implementation & Hosting Costs for:

- Cloud-based solution: GeniusDoc offers a Cloud-based solution that includes hosting and implementation fees for a monthly fee; cost is per provider.
- License-based solution: GeniusDoc offers a license-based solution for a one-time software license fee per provider with additional fees for implementation. Additionally, there is a supplemental monthly support & maintenance cost

On top of the implementation & possible hosting costs, this certified product-version could require additional costs for:

- A third-party partner that provides patient-specific education (170.314(a) (15) Patient-specific education resources). Costs are a monthly cost per provider.
- Connecting to providers on other HISPs which are part of the Direct Trust Bundle may require ongoing service fees per provider. This is in regards to criteria 170.315(b)(1) – Transitions of care – receive, display and incorporate transition of care/referral summaries
- Generating and/or transmitting QRDA (170.315(c)(1) - (c)(3) Clinical Quality measures) or other format file(s) required for participation in payer quality initiatives/programs may require one-time costs, ongoing service fees, and/or transaction-based fees.
- This certified product-version is certified to Data Portability criteria 170.315(b)(6) and can generate a set of export summaries for all patients. However, the ability to utilize the mass export functionality for Data Export is designed to work after hours to ensure optimal system performance.
- This certified product-version may require one-time costs and/or re-occurring costs to establish interfaces for reporting to immunization public health agencies or any specialized registry. (170.315(f)(1) – Transmission to Immunization Registries, 170.315(f)(2) – Transmission to Public Health Agencies – Syndromic Surveillance, 170.315(f)(4) – Transmission to Cancer Registries)
- This certified product-version may require one-time costs and/or re-occurring costs to establish Standard API's to connect to and exchange health information. (170.315(g)(7) – g(9) Application Access)
- Depending on the customer's selected lab/imaging company & their current transactional volume, this certified product-version may require one-time costs to establish interfaces to electronically exchange results. (Laboratory Results, Radiology/Pathology Results)
- Depending on the patient's preferred mode of communication, transactional costs may apply per SMS/voice message sent.
- Depending on the customer's needs, there may be costs for any additional services outside the standard agreement (such as additional implementation services, business analysis services, additional training services, etc.).
- Support & maintenance for integration of this certified product-version with other ONC certified systems may require additional one-time and/or re-occurring costs.

The Eligible provider must sign a GeniusDoc Software License & Support agreement and the term of the agreement is 3 years and 1 year for subscription model which may vary depending on the customer's needs.

There may be additional agreements that an Eligible provider must enter with a third-party vendor (such as a clearinghouse company, lab company, etc.) depending on the customer's needs.

Limitations:

There are no known limitations that a user may encounter in the course of implementing and using this Health IT Module's capabilities, whether to meet meaningful use objectives and measures or to achieve any other use within the scope of the health IT's certification.

Required Software: SQL Server 2008 R2, Windows 2008 R2 Server, Windows 10 Professional, MS Office 2010.
